# Parents and Carers: Welcome to the SaferSchools App!
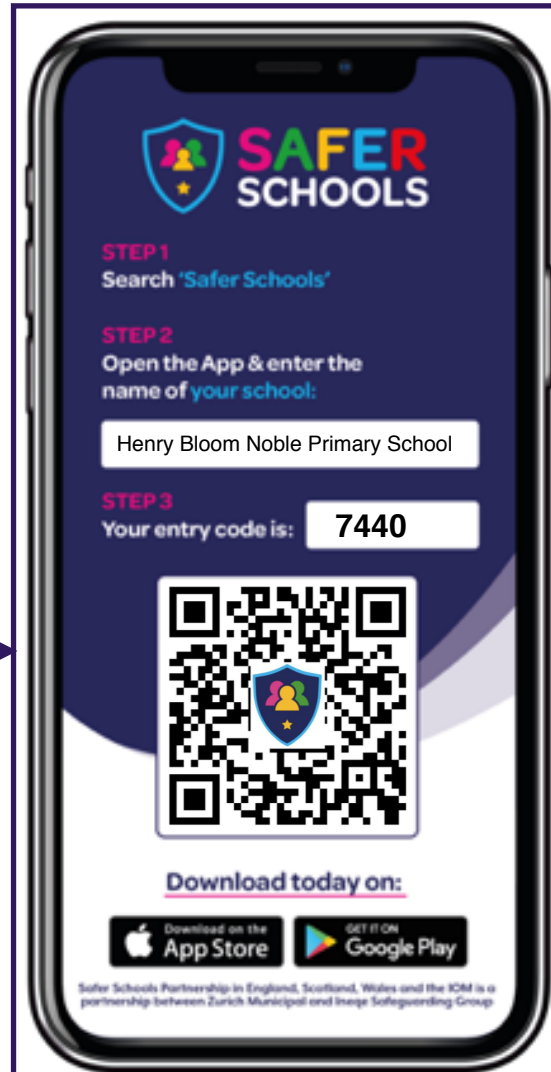

The online world can be a bit overwhelming at times, but it is **important we understand what our children are doing online** so we can help make them safer.

The **SaferSchools App** was launched Island wide in 2019. It is a school based initiative which allows teachers, **parents and carers**, and students, to better protect themselves by having **Safeguarding** information at their **fingertips**.
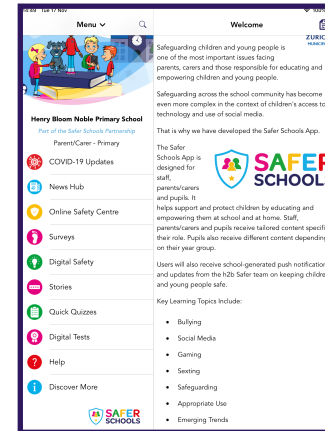

As parents and carers, the app provides you an **insight** into **critical issues** such as bullying, current "crazes" that are having a negative impact on your children's behaviour and attitude, use of social media and gaming. The app offers **easy to follow advice** on how you can make your homes and the devices you give your children **safer**.
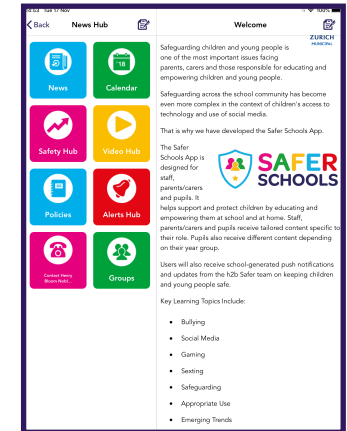

## Follow these steps to get on the app:

### STEP 1
Search 'Safer Schools'

### STEP 2
Open the App & enter the name of your school:

Henry Bloom Noble Primary School

### STEP 3
Your entry code is: **7440**

Download today on:
App Store | Google Play

Safer Schools Partnership in England, Scotland, Wales and the IOM is a partnership between Zurich Municipal and Ineqe Safeguarding Group

Make sure you **enable push notifications** to keep up-to-date with our tips, advice and guidance, on how to make your children safer.
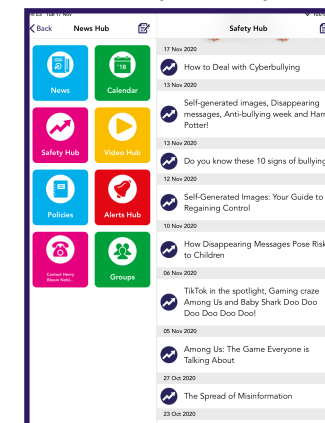

## What you may find in the app:

This is the main screen when you load. You can navigate around the app through the side bar - here you can find the different elements of the app.

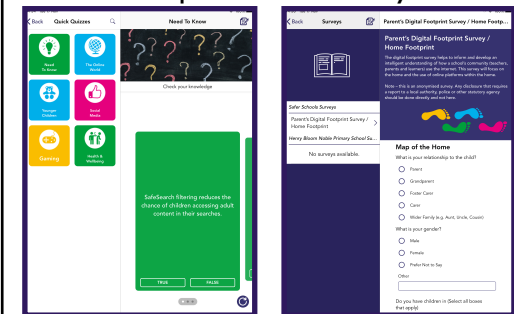

By clicking on news hub it can take you to different elements of the app, including links to our school website and information.

The safety hub gives links to updates on relevant videos and current information on different social media trends. You are also able to search for information which is relevant to you and your child.

There is also the option to complete mini quizzes and surveys.

Also, by allowing push notifications, HBN will be able to send you relevant updates and information… straight to your fingertips!

We hope you find this as useful a tool as we do and that we can all move towards helping our children keep safe on line.
