

2nd December 2020

Dear Parents / Guardians

## Re: Online Home Learning

Just like many other island primary schools HBN will be using 'ItsLearning' to enable children to access and engage with learning at home. Its Learning is an online platform where teachers can share learning with their class, interact with the children and allow children to share learning they have completed at home with their teacher.

It is one of our school priorities to ensure that all children are able to access and use this platform at school and at home. Miss Ellison has been busy developing a space specifically designed for HBN pupils and putting together a video that will give you all of the information that you need to access Its Learning. This includes how to log in, navigate and use the platform to make home learning as effective and practical as possible.

Each child will have their own username and password (attached to the letter) which is personal to them. This will become your child's own 'learning space'. Your child's username begins with the year they started school.

The video is posted on the HBN Facebook page as well as the HBN website - <https://hbn.sch.im> .

We know there will be lot of questions and possible technical problems with accessing 'ItsLearning', which we understand. We have therefore planned a 'drop in session' on Friday 4th December from 2.30pm-3.45pm where Miss Ellison and members of staff will be available to solve your queries.

We do hope that children will be able to continue their learning at school for the foreseeable future, however we endeavour to be as prepared as we can should there be a need for children to learn from home.

Yours sincerely  
HENRY BLOOM NOBLE PRIMARY SCHOOL
