

Just for fun!

- Create a home workout - what different circuit challenges can you do?
- Build a den or a fort!
- Be a mime for a day!
- Try to talk without vowels for the day (try to talk without vowels for the day).
- Keep giving compliments!

Art and DT

- Sketch a member of your family.
- Do some baking.
- Find some different bits in the garden and make a collage.
- Junk modelling - what can you make with your rubbish?
- Design a safety suit - what would you make it with?

ICT

- Access ItsLearning.
- Make a music video.
- Create a David Attenborough style video of the antics in your house.
- Design a poster encouraging people to wash their hands.
- Speak in or type up a story.
- Do some computer programming.

Earth and Space!

- We had just started studying Earth and Space, keep it up.
- Research 'Life on Other Planets' What do scientists think could be out there? Look at signs of water on Mars or the icy moons of Jupiter and Saturn. Create a display of all you can discover!

Topic

- Draw a map of your house.
- Create a poster persuading people not to travel.
- Research different countries.
- If you were stuck on a desert island, who would you like to be stuck with and why?
- Keep a weather chart.

English

- Write a play and perform it to your family.
- Write a fantasy story about what you could be doing instead.
- Write instructions of how to wash hands properly.
- Write a poem and perform it.
- Keep a diary of what you do.

Maths and Science

- Practise on TT Rockstars and Hit the Button, or Play Beat Siri!
- Make a maths board game.
- Label the body parts and organs of someone in your house.
- Research germs and how they affect the body.
- Can you design an experiment?

Year 5 Home Learning Challenges

Remember to practise your times tables and read regularly - there are lots of audio books online too. Also, you can come up with your own ideas too.
