

LKS2 Investigation Plan

Vocabulary I will try to include:

What are we investigating?

What is your key question?

What is your prediction?

What type of investigation do we need to use?

Method:

We will measure/observe...

Observation / Results:

Conclusion

If I did repeated my investigation, what would change next time?

What equipment will we need?

What new questions could I investigate now?

How did I present my results?
