

Eco Action

Welcome to Eco Club Online at HBN.

Although we maybe in lockdown, our planet isn't, and we can still make a difference in what we do. We would really value your comments , photos or videos sharing any recycling, gardening, or wildlife activities that you have done. Maybe you have watched or read something that has inspired you? Why not share it with us? If you haven't already, check out the GROW videos on your Home Learning Packs (available on the HBN wiki), and also on our HBN Facebook page (your parents have access to this)

Find out what other pupils are doing and share your ideas.

HBN WIKI

<https://hbn.sch.im>

HBN FACEBOOK PAGE

Ask your parents to access this if they have an account.

If you have access to this then you can send your ideas to Miss Ellison.

(do this via an email!)

EMAIL

Mrs Walmsley at HBNEnquiries@sch.im

This week Mrs Bateman is very excited about the tadpoles in the pond she dug out in this winter. They have large bodies and long tails.

Recycling information

Since Friday 24 April - the IOM Government **Bring Banks** are now available to drop off household recycling. Please check out the Eastern Civic Amenity website below as the situation changes frequently.

<http://www.douglas.gov.im/index.php/services/civic-amenity#.Xqqh8C3Mz-Y>

Don't forget to Reduce, and Re-use before you Recycle and send in photos of your re- using projects.

Going for Green!

ECO CODE

Can you help us design our ECO code?

This year we decided in our Eco committee meetings that we would focus on **Energy, Waste** and **School Grounds**. We need to develop an **Eco code** that reflects these ideas. Make it short and snappy. Your ECO code could rhyme, or spell a word, have pictures. Use your creativity and imagination. Take a look at the examples for inspiration, and then send in your own. One will be chosen as our ECO code and will help us work towards our GREEN FLAG status! P.S Parents are a vital part of our ECO community as well so you are very welcome to submit your own ideas as well.

Eco-Schools Waste

Aim: Reduce fruit and vegetable waste.
Encourage staff to be mindful when printing.

Eco-Schools School Grounds
Aim: To build on our range of plants and vegetables to attract insects and overall appearance and interest in the school grounds (including Forest Schools)

Eco-Schools Energy

Aim: Increase awareness of energy use and reduce energy wastage in school and homes.

Make sure you include our key topics!

Here are some examples from other schools .

Our Eco Code

Summerside Kindergarten & Pre School
Eco School

We will:

Reduce, reuse & recycle
Plastic bottles, paper, cardboard, glass and cans

Put litter in the bin
Things that can't yet be recycled

Be good to wildlife
Animals, birds and insects

Grow our own healthy food
All kinds of fruit and vegetables from our allotment

Make our own compost
Recycle fruit and vegetable peelings and cardboard

We care
We share
We make our planet fair

Building a pond
We're making a bond
Around the school grounds
Non-recycling is out of bounds

Try to re-use
Don't refuse

Save your juice tin
Put it in the recycling bin

Reduce the Litter
That makes us bitter

Reduce Re-use Recycle
Help the human life cycle

Love Earth

Eco-code

Grow vegetables and plants.

Recycle cardboard, plastic & glass.

Everybody help to pick up litter.

Each person keep the world a good place to live.

Nobody should put unwanted paper in the rubbish bin.
